CMS Roofing, Inc.

CMS Roofing, Inc., headquartered in Fort Wayne, IN, has been serving the commercial roofing needs of Fort Wayne, IN and surrounding areas since 1913. As a full service commercial roofing contractor with a strong "commitment to quality" mission, CMS Roofing offers the skills and expertise that ensures customer satisfaction from start to finish, and beyond. As a family owned and operated business for over a century, CMS Roofing has built a solid reputation by being committed to installing quality roofing systems at competitive prices while maintaining an uncompromised level of safety awareness.

Staffed with a team of professionals who have decades of experience within the industry, CMS Roofing has the capabilities

to provide their customers with the most dynamic services, including new construction and re-roofing as well as visual inspections, follow-up recommendations, comprehensive proposals, expert repairs and more. CMS Roofing looks to provide the highest standard of service, quality and workmanship on every roofing project. They take pride in developing long-term relationships with their customers and have earned a reputation for reliability and dedication thanks to their outstanding customer service, integrity and stability. From specifications to completed installations and follow-up inspections, CMS Roofing is focused on one goal – maximizing your roofing investment by offering superior service that extends the life of your roof and lowers its lifecycle costs.

CMS Roofing, Inc.

In 1995, an architectural sheet metal division was created to provide the CMS Roofing customers with quality metal trim. Since then, CMS Roofing has been custom fabricating and installing metal copings, counter flashings, gravel stop fascia and more. All metal trim is custom made in-house; ensuring quality products are finished in a timely fashion. CMS Roofing also has the skills and expertise to install metal wall panels as well as standing seam roofs, solar panels and green roof systems.

Having installed and warranted more than nine million square feet of Carlisle SynTec single-ply roofing membrane, CMS Roofing is a five-time recipient of Carlisle's prestigious ESP (excellence in single-ply) award. The ESP award, one of the most recognized awards in the single-ply industry, goes to Carlisle authorized applicators who exceed Carlisle standards for customer service, timely deliveries and quality applications. With the ESP distinction, CMS Roofing can offer unmatched Carlisle warranties for up to 30 years.

CMS Roofing has also achieved Carlisle Hall of Fame status, having completed more than

500 Perfect 10 installations. After a Carlisle membrane roofing system installation is completed, a Carlisle field service representative will rate the installation based upon workmanship and adherence to Carlisle specifications. A Perfect 10 installation has obtained the highest possible rating, meaning it is virtually flawless.

As a Carlisle authorized applicator, the experts at CMS Roofing have demonstrated their knowledge and experience with a full line of Carlisle roofing systems and products. To become a Carlisle authorized applicator, a company must undergo training conducted by Carlisle that covers roofing system installations and maintenance. After completing the initial training program, authorized applicators also take part in a continuing education program to ensure they understand the latest technology and procedures from Carlisle.

To discuss a new roofing project, schedule an inspection of an existing roofing system or find out how you can benefit from the services offered by CMS Roofing, Inc. call 260-482-7663 or visit their website at www.cmsroofinginc.com.
