Re: CMS Roofing, Inc.

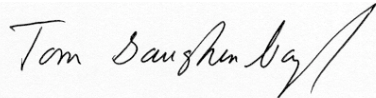

To Whom It May Concern:

CMS Roofing, Inc. has installed DERBIGUM modified bitumen roof systems since the product was first introduced to the United States in 1980. As a DERBIGUM Authorized Contractor (DAC), CMS Roofing is qualified to offer DERBIGUM system warranties for periods up to 30 years in length.

CMS Roofing's longstanding success is the result of their dedication to quality, and their skilled craftsmanship in the installation of DERBIGUM systems. They have successfully installed over 150 DERBIGUM roofs, totaling well over 1 million square feet. CMS Roofing's pledge to professional service and DERBIGUM's commitment to manufacturing a durable, sustainable product has resulted in a partnership that provides building owners in Northwest Indiana with proven, long-term waterproofing protection.

When looking for a professional roofing contractor in the Fort Wayne area, DERBIGUM recommends CMS Roofing Inc.

Sincerely,
DERBIGUM Americas, Inc.
